

Tiny Fields Farm is a small family flower farm located in Churchville, VA. We offer summer bouquet subscriptions, custom centerpieces for events, as well as options for purchasing flowers in bulk for DIY events and arrangements. You can learn more about Tiny Fields Farm and what we have to offer by visiting our website.

Our perennial gardens offer a wide range of blooms and foliage from elegant and fluffy peonies to peppery and untamed bergamot and mountain mint. The annual cutting garden is extensive with new varieties each year and tried and true southern favorites like snapdragons, zinnias, cosmos and sunflowers. We seek out unpretentious varieties that are vibrant and distinctive.

Our weekly CSA bouquets will feature around 15-20 stems and include these hand selected varieties along with an occasional foraged treasure that we just cannot resist. They are a true reflection of the season. Bouquets are wrapped and ready for pick up in a

simple craft paper, ready to fill a vase or separate and sprinkle around your home.

As a new farm we are enthusiastic to “grow” our business as an add-on to one of our favorite farms, Project GROWS.
