

A LABOR OF LOVE: Weekly Milk Share

Mountain Branch Creamery is a family farm near Dayton, VA that believes in the health of the land and the animals. They are offering a weekly milk share through this year's Project GROWS' CSA. A milk share will include one gallon of very, very fresh, lightly pasteurized (held at 140F instead of the more typical 180+F), unhomogenized (a.k.a. cream top) milk. What this means is a gallon of nutrient dense, minimally processed milk brought to you less than 24 hours from when it is bottled.

The cost of the milk share is \$8.75 / gallon (per week) or \$175 per season.

NOTE: In order to offer this milk share, a minimum of 20 sign-ups are needed. Folks are welcome to reserve more than one share or to purchase additional shares on behalf of neighbors and friends!
