PROJECT GROWS

Let's Keep Growing Together in 2021!

AS WE BEGIN A NEW DECADE OF SERVICE at Project GROWS, the critical needs in public health, food justice, equity, access, and building sustainable food systems in our community—and the opportunities to transform them—are significant.

With YOU we are engaged, connected and making a positive impact across our communities.

With YOU we're resilient and will continue to grow healthy youth, families and communities, educating and advocating for the best of health and the future for our children, youth and families.

THANK YOU for your generous and sustaining support!
